

Junior Production Planner | Location: [GENOA]

Are you a recent Industrial Engineering graduate eager to gain experience in a production environment?

We are looking for a bright and motivated individual, even at their first job, to join our Production Planning team.

What You Will Do:

- Support production planning and scheduling in coordination with the operations team
- Analyze requirements and resources to ensure timelines and continuity of production activities
- Update and monitor Bills of Materials (BOM) and routing processes
- Interface with the technical, logistics, and procurement departments to align on production priorities
- Contribute to the continuous improvement of planning processes

Requirements:

- Degree in Industrial Engineering (recent graduates welcome)
- Basic, even theoretical, understanding of industrial production processes
- Familiarity with the concept of Bill of Materials (BOM)
- Strong analytical, organizational, and communication skills
- Team-oriented mindset and proactive attitude
- Familiarity with Excel and ERP tools is a plus

What We Offer:

- Placement in a dynamic and growing environment
- Structured training path with mentoring and on-the-job learning
- Professional growth opportunities in Operations
- Contract and compensation based on experience and qualifications

 If you want to start your career in a stimulating and well-structured environment, send your updated CV to hr@phase.eu
