By your side at EMO 2019

Dormer Pramet will use its presence at EMO 2019 in Hannover (September 16 – 21) to share its expertise in a variety of machining applications and industry sectors.

It will be the third successive EMO that Dormer Pramet has attended, since it was formed in 2014, with the team located in Hall 3, Stand I41.

A variety of cutting tools will be on show in ISO material-themed displays around the stand, with a focus on general engineering, railway and heavy machining.

Visitors will be able to view a variety of railway products, including the large 600mm diameter dynamic rail milling cutter and tools to support the machining of bearing plates, switches and wheel sets. Cutting tools for heavy turning, milling, threading and specialist metallurgy areas, such as scarfing, edge preparation and beveling, will also be on display.

Dormer Pramet's Force range of drills, Shark Line taps and high feed milling cutters are all set to make an appearance at EMO as part of the company's comprehensive offer for the general engineering industry.

In addition, technical application specialists will be available to provide expert advice and support on a variety of machining challenges. There will also be a live Q&A on Twitter with a member of the Dormer Pramet team during the show.

Elke Aurand, general manager of Dormer Pramet Germany, said: "As a business, we might have just celebrated our fifth birthday, but we bring together more than 150 years of industry expertise and knowledge covering both round tools and indexables.

"Also, our team in Germany has many years combined experience to advise end-users with application support or distributors needing to find the right tool for their customer. This guidance can prove invaluable for anyone wanting to improve and maximize their productivity. EMO offers visitors a great opportunity to tap into this industry know-how all in one location."

There are more than 1,000 complimentary tickets available for EMO 2019 through Dormer Pramet. To receive your free entry pass email Isabel.hagen@dormerpramet.com, including your name, company and contact details. Please note privacy policies apply.

For more information about Dormer Pramet, meet the team in Hall 3 and Stand I41, visit www.dormerpramet.com or contact your local sales office. EMO takes place in Hannover, 16 – 21 September 2019.
