LACH DIAMANT expands Sharpening and Grinding Service for Diamond-wood, -plastic tools and for cutting tools for aluminium

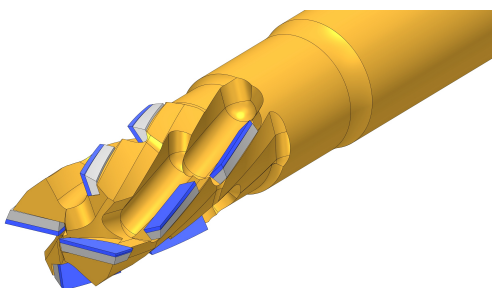

As of now, LACH DIAMANT, well-known pioneer in the field of Diamond Tools, offers its expanded machine sharpening capacities for the sharpening service of Diamond Tools for the furniture- and composite-industry as well as for the automotive industry.

As the management emphasises, this service offer includes all Diamond Tools, independent of the respective manufacturer.

As the manufacturer of the flexible universal EDM grinding machine »Dia-2200-mini«, LACH DIAMANT offers fast, high-quality service for various tools, from diamond routerbits respectively end mills to jointing cutters with extreme axis angles, from saws to all kind of aluminium cutting tools.

A regular pick-up and delivery service is available upon request.

Of course, LACH DIAMANT also continues to manufacture new high-quality tools according to your specifications.

More information is also available at www.lach-diamant.de or from office@lach-diamant.de or call +49 6181 103 822.
