Turn to Dormer with new 2018 catalog

Featuring more than 540 product families over 640 pages, the new Dormer catalog is now available.

Available in 20 languages, the comprehensive publication covers Dormer Pramet's round tools assortment and features 50 new products since the last edition.

Latest additions include the new Force X and Hydra carbide drills and a complete program of rotary burrs. Dormer's range of threading tools has also expanded significantly with new Shark Line taps, forming taps, as well as a full range of thread milling cutters.

The full collection of tools is grouped by product type; drills, taps, milling cutters, reamers, countersinks, dies and parting off tools. Also, there are new sections specifically dedicated to thread milling cutters and rotary burrs, reflecting Dormer's expanding assortment.

The popular Technical section is again included, providing advice and support information on a wide range of machining applications.

Meanwhile, a new icons and symbols bookmark will complement the new catalog as a quick reference guide and allow users to find frequently used pages more easily.

Offering both versatile and material-specific cutting tools, Dormer Pramet's rotary program provides a variety of options for a host of industry segments, such as die & mold, maintenance repair and overhaul (MRO) and general engineering.

In total, more than 56,800 copies have been printed of the 2018 catalog and to request a hard copy contact your local Dormer Pramet sales office.

The publication is also available as a downloadable pdf from the Dormer Pramet website, visit www.dormerpramet.com for details.

Dormer is a product brand of Dormer Pramet.
